

- The menu language, voice output and information are available in 7 languages: Dutch, English, French, German, Italian, Portuguese and Spanish
- Information on 1 314 000 points of interest such as hotels, restaurants, car parks, service stations, airports, railway stations, tourist attractions etc.
- Dynamic navigation via TMC (if available) is usable in the following countries: Austria, Belgium, Denmark, France (© Mediamobile), Germany, Great Britain (© RAC Trafficmaster), Italy, Netherlands, Spain, Sweden, Switzerland.
- Audi item number: 4E0 060 884 CN

**Points of Interest** - provides considerable local travel information on airports, hotels, restaurants, hospitals, petrol stations, car parks, park & ride locations, tourist attractions and many more. For example, if you select a particular hotel as a destination, you will be directed right to the front door.

Navteq vigilantly maintains and updates its digital maps to ensure that users receive the freshest, most accurate and most complete data available.

The benefits of driving with the most up-to-date maps are numerous: of course, journey time can be saved; the level of accuracy offered enables you to get right the way to your destination, not just close. Additionally, we are continuously updating the Points of Interest in the database, and this may add to the enjoyment of your journey in offering varied places to visit and restaurants to eat in. All of which combines to offer an easier, more relaxed driving experience for you.
